AC Communication

FYI – NewFields is asking about CFAC. I suspect that they're getting involved.

For Mark and Scott's benefit, Newfields is the entity that worked with M2Green on the Smurfit Stone site. They provided extensive comments on the HRS package.

Hi Robert,

We're the results of the second round of sampling at the Columbia Falls Aluminum Plant (April 7, 2014 sampling) ever released to the public?

If so, could you direct me to that information?

The EPA site ID is: MTD057561763

Thanks,

**David Tooke, PhD.**
